# Fall 2023 ITCS 6190 Project Review

Deliverable 4 || Group- 5

Names: **Gaurav Avula, Naga Nikhil Bijjala, Harshini Karnati, Rohan Katari, Naga Srivatsav Machiraju**

# AWS Cost Analysis and Optimization

BIlling Dashboard

The **total cost** incurred for our project till date is **$19.63**, with a monthly breakup of $17.76 for November and $1.87 for December 2023.
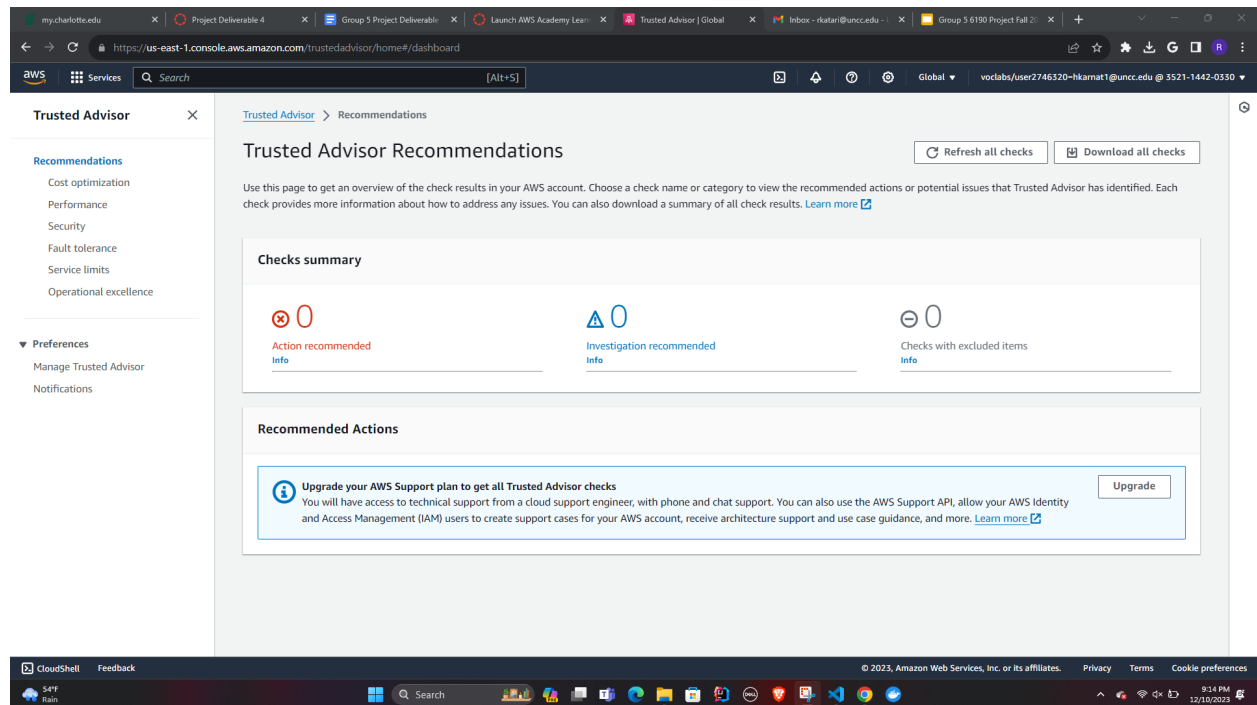

The detailed breakup of charges service-wise is as below:

AWS Service	Amount in USD $
AWS Glue	16.239
AWS S3	0.012
Amazon Sagemaker	0.003
Amazon CloudWatch	3.375
AWS Key Management Service	0
Others	0
Total	**$19.629**

AWS Cost Explorer

AWS Trusted Advisor

From the above screenshots of AWS Cost Explorer and AWS Trusted Advisor, it can be observed that we have made minimum utilization of AWS services resulting in lease costs possible.

Hence no optimization suggestions or recommendations have been made.
